

Why Partner With ISS?

Independence

Our non-exclusive partnership allows research sites to remain autonomous and encourages existing business development practices. You select which studies to pursue, and negotiate budgets and contracts directly with the sponsors/CROs.

Opportunities

ISS forms successful unions between qualified sites and appropriate clinical trials. With study protocols strategically matched to your site's interests, capabilities, and specialties, you choose from a diverse range of opportunities:

- Preferred Indications
- Drug and Device Studies
- Inpatient and Outpatient
- Healthy Subjects/Phase I
- Phase II and III
- Post-Marketing/Phase IV

The Clinical Trial Matchmaker

WHO WE ARE

Investigator Support Services (ISS) is a clinical trial broker with 15 years of experience matching independent research sites with industry sponsored drug and device studies. More than 600 quality sites partner with ISS to enhance site visibility and secure additional study opportunities.

WHAT WE DO

ISS provides independent sites with a steady stream of clinical trial opportunities in various phases and indications. We locate studies of interest to your site, obtaining over 250 protocols from more than 100 sponsors annually. Your site can devote more time to research as we:

- Identify studies in your areas of interest and expertise;
- Match your site capabilities to study requirements;
- Distribute, collect, and review study information and materials (protocol synopsis, CDA, questionnaire, etc.);
- Provide regular updates on studies of interest to your site; and
- Address study questions and discuss your clinical research needs.

**Allow Investigator Support Services
to deliver your next clinical trial.**

BUSINESS DEVELOPMENT

Strategic Promotion

Our dedicated sales force promotes your site's capabilities and experience backed by your performance data. In the clinical trial search, you benefit from our industry presence and our sales and marketing efforts:

- Internet and industry advertising, and directory listings;
- Trade shows, networking functions, and presentations to clinical trial sponsors;
- Direct contact with site selection decision makers; and
- Targeted sales calls and frequent email campaigns.

Industry Contacts

Our long-term relationships with key site selection personnel ensure a continual influx of new studies. Extensive industry research, combined with our database of 9,000 sponsor/CRO contacts, provide additional studies strategically matched to your needs.

Quality and Performance

ISS partners with sites that demonstrate quality and successful performance. We promote high-quality sites by highlighting prior trial experience, enrollment statistics, staff training, facilities and equipment, negotiation and start-up time, and patient demographics.

BUSINESS OPERATIONS

Site-Friendly Terms

Outsourcing reduces the time and expense of internal business development. ISS offers a no-risk partnership with no fee to be part of our network. Your site chooses which studies to pursue and contracts with ISS on a study-by-study basis.

For each study grant, we charge a low broker fee and offer a choice of site-friendly payment terms. Your site pays only for studies in which you have participated and received funds from the sponsor/CRO. Unlike other study brokers, ISS does not interfere with financial matters between sites and sponsors/CROs. Investigator payments are made directly to your site.

Keeping You Informed

After submitting your site information, we maintain timely communications with sponsors/CROs to provide regular updates. We keep you informed with at-a-glance reports summarizing the studies you have chosen to pursue with ISS.
